Class Sizes and Make-Up Classes

Classes will normally have four students. Children who miss a regularly scheduled class may request a make up with another group. For this reason, once a month, classes may have five students.

Schedule

Please number your class preferences from one to five. If you want your current spot, include it in your numbering as number 1. We have marked next school year's grade levels in each class. An especially low student can count as a grade below and an especially high child can count as a grade above.
